

AMENDMENT 02
OF THE AMERICA'S CUP AC45 CLASS RULE VERSION 2.1

In accordance with Protocol Article 35.1 the following amendment to the AC45 Class Rule V2.1 is made:

1. Remove:

C.1.6. The yacht, in measurement condition, shall not weigh less than 1320 kg plus the weight of organiser specified media equipment or more than 1350 kg plus the weight of organizer specified media equipment. Any shortfall in this weight shall be made up by corrector weights securely fixed to the hulls or their internal structure within 0.420m fore and aft of the shroud chainplate bulkhead, as specified by the Measurement Committee.

Replace with:

C.1.6. The yacht, in measurement condition, shall not weigh less than 1625 kg plus the weight of organiser specified media equipment or more than 1655 kg plus the weight of organizer specified media equipment. Any shortfall in this weight shall be made up by corrector weights securely fixed to the hulls or their internal structure within 0.420m fore and aft of the shroud chainplate bulkhead, as specified by the Measurement Committee.

2. Remove:

D.1.1 The wing in wing measurement condition shall not weigh less than 385 kg plus the weight of organiser specified media equipment. Any shortfall in this weight shall be compensated for by the necessary corrector weight being affixed at the connection between the lower wing spar section and the upper wing spar section, as shown in Appendix D.

Replace with:

D.1.1 The wing in wing measurement condition shall not weigh less than 390 kg plus the weight of organiser specified media equipment. Any shortfall in this weight shall be compensated for by the necessary corrector weight being affixed at the connection between the lower wing spar section and the upper wing spar section, as shown in Appendix D.

3. Add:

A.7.2 The Measurement Committee, with the approval of the Regatta Director, has the authority to amend these Class Rules regarding yacht weight and wing weight.
