

Competitor Crew Biometric Data & Settings Listing

Reference: AC35 Biometric Data System Specification: 4.1 CAN Setup

4.1 General - The CAN Port will be set up to allow access to receive the data. It will not have the capability for the Competitor to configure the receiver.

4.2 Description

4.2.1 CAN Setup - Due to the nature of CAN systems, Competitors will be required to specify the following, if required to be alternate from the Default:

Competitor CAN Interface Settings		
Team Name		
Setting		Value
Speed	500K/250K (Default 250K)	
CAN ID Range	600's (Default)	

Reference : AC Class Rule: Appendix I Section 10.2 (a)

(a) An Ant+ chest strap or a Zephyr BioHarness shall be worn by ACTV designated crew. ACTV intends to collect heart rate, heart rate variability, breathing, body temperature, G Forces, calorie burn, and exertion information. If required by ACTV, Competitors shall provide additional information such a age/height/weight to enhance the data collected;

Competitor Sailing Team/Crew	
Sailor 1	Name
	Position
	Age
	Height (cm)
	Weight (kg)
Sailor 2	Name
	Position
	Age
	Height (cm)
	Weight (kg)
Sailor 3	Name
	Position
	Age
	Height (cm)
	Weight (kg)

Sailor 4	Name
	Position
	Age
	Height (cm)
	Weight (kg)

Sailor 5	Name
	Position
	Age
	Height (cm)
	Weight (kg)

Sailor 6	Name
	Position
	Age
	Height (cm)
	Weight (kg)

Sailor 7 / Reserve 1	Name
	Position
	Age
	Height (cm)
	Weight (kg)

Sailor 8 / Reserve 2	Name
	Position
	Age
	Height (cm)
	Weight (kg)

Sailor 9 / Reserve 3	Name
	Position
	Age
	Height (cm)
	Weight (kg)
