Re: Buoyancy Aids

Racing Rule 40.1 sets requirements on crew regarding some personal equipment. The Umpires require from each Competitor the following:

1.
Proof from the manufacturer of the buoyancy aids confirming that they meet the flotation standard of ISO 12402-5 or ISO 12402-6 (CE 50 Newtons). This can be via letter from the manufacturer or via photo of the CE mark on the equipment.
2.
Video of one crew member removing or deflating his buoyancy aid within 5 seconds while in in the water.

Please send these details to rbyac@acracemgt.com by June 9, 2017.
