

AMERICA'S CUP

REGATTA DIRECTOR NOTICE #33

Issued 27 January 2016

Re: Cleaning AC45 Yachts while in the water at Louis Vuitton America's Cup World Series Regattas

Note: Regatta Director Notice #30 is deleted and is replaced by this notice.

Competitors may clean and maintain their yacht while it is in the water. This includes working on surfaces and items that are under the water by individuals who are in, or out of, the water.

This approval does not eliminate the duty of care each Competitor has to ensure that their team members operate with the appropriate safety and risk.

Furthermore, there will be some venues where this approval is modified. For example, if certain water conditions exist (such as quality, current or nearby traffic), I may prohibit people from entering the water to clean or maintain their yacht.

I plan to refer to this notice and will include any modifications to this approval in the Sailing Instructions.

Iain Murray
Regatta Director
